

Ameer Mohammad Khan

416-312-8059 | ameer.khan@mail.utoronto.ca | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

STRENGTHS

- Proficient in modern programming languages, including **Python**, **Java**, **JavaScript**, **HTML**, **CSS**, and **SQL**, with a strong foundation in **data structures**, **design patterns**, and familiarity with **React** and **Node.js**.
- Experience with **source control systems** like **Git**, ensuring effective version management and collaboration on software development projects.
- Demonstrated ability to work collaboratively in **Agile environments**, contributing to structured development processes including **unit testing**, **code reviews**, and **scrum** practices.
- Skilled in developing **scalable applications** and maintaining strong **interpersonal skills**, effectively contributing to team success.
- Highly motivated and quick learner, eager to adapt to new technologies and consistently deliver innovative solutions.

WORK EXPERIENCE

IT Consultant

June – September 2024

BDATA Solutions

Toronto, ON

- Conducted comprehensive **IT General Controls testing** to ensure compliance with security policies, improving operational efficiency and safeguarding data integrity.
- Collaborated with multidisciplinary teams to document and optimize **system architectures**, enhancing **scalability** and aligning with best practices in data management.

Mobile App Developer Intern

March – June 2024

GoKaddal Technologies

Toronto, ON

- Designed and implemented secure mobile application features, including **data handling systems** and **user authentication protocols**, ensuring secure operations and user trust.
- Developed interactive, user-centric interfaces tailored to enhance **client engagement** and meet business objectives effectively.

Web Developer & Marketing Intern

May – August 2021

Studenttimes Staffing Solutions

Mississauga, ON

- Created and maintained a **full-stack web application** to streamline operational workflows, improving **efficiency** and user satisfaction.
- Led the development of **scalable UI components**, ensuring compatibility with **modern design standards** and optimizing performance.

SOFTWARE AND DEVELOPMENT PROJECTS

Trip-Sharing Simulation App

May – June 2023

University of Toronto

- Developed a Python-based simulation system, utilizing **data analysis** to reduce rider wait times by 25% and enhance **system efficiency**.
- Applied **object-oriented programming** to build a scalable solution for **real-time event management**, supporting dynamic workloads.

Tree-map Visualizer

July – August 2023

University of Toronto

- Created and optimized a JavaScript-based tree-map visualization tool, increasing user engagement by 20% through an advanced, intuitive API that supports interactive navigation and dynamic resizing.
- Streamlined the development process by leveraging **efficient coding practices**, reducing overall development time by 30%.

EDUCATION

Bachelor of Science, Computer Science

September 2022 – Current

University of Toronto

Toronto, ON

- Graduating in June 2026.
